Subject: Internal reg and non-reg schedule through January

Hello,

Yesterday we sat down with Janet and Joe to discuss the remaining rules through this Administration. For planning purposes, they would like to see the rules and non-regulatory items (i.e. Regional Haze actions, Point of Obligation for RFS, Light Duty Vehicle actions, NODAs) that we expect each month. They would also like to know when advances will be sent to the IO for review.

I've revised the weekly ADP tracker so actions are separated by month rather than office/region. I've also added a "Priority" column that Janet would like each office fill in with high, medium, or low in reference to workload. Janet would like to discuss this piece at the pre-brief for the OMB meeting next week so please send me your edits by COB Tuesday, September 6th.

I know you all are currently updating ADP for the upcoming OMB meeting and I apologize for any duplication. Please let me know what I can do to help in any way and/or if you have any questions.

Thank you,

Carissa
